CARLISLE MAN SELECTED AS EXAMINER FOR SPRING EXAMINATIONS.

(Carlisle Mercury.)

Prof. R. Dean Squires has received the following letter from Superintendent W. J. Caplinger, of the Maysville city schools:

Dear Mr. Squires:—Our regular spring examinations come off Saturday, May 1. You are expected to furnish questions in the subjects, geography, physiology and hygiene, theory and practice. It is the pleasure of the board and myself that you help conduct the examination. Make out at least enough questions for twelve applicants.

I noticed in our paper Saturday that you have as your first assistant one of our young men, James P. Threlkeld. While I do not know very much about James, yet, judging from what I know of the rest of his family, and especially his sister, Miss Hilda, who is the head of the English Department, I would say that you have made a successful catch. I feel quite sure that after the novelty of the work wears off and he gets settled down to regular routine work, that you will find him painstaking, careful, industrious and proficient.

Kindest regards to Mrs. Squires and best wishes for the success of you and Threlkeld, I am,

Your friend,
W. J. CAPLINGER,
Superintendent City Schools.

LATEST WAR BULLETINS

London, April 8.—Although she has concentrated her army along the Austrian border, and her navy within striking distance of the Adriatic, Italy is still endeavoring to exhaust every means which may lead to a peaceful settlement with Austria of the questions of territorial concessions.

Advices from Rome indicate that even should Italy become unbridled in the war, she will not strike for some time. It is believed in Rome that the decisive struggle among the nations now at war will not begin before the early summer, which would allow Italy a considerable interval in which to decide upon her policy.

The Austrian correspondent of a Turin newspaper telegraphs that he has reliable information that there is a basis for the reports that Austria is seeking peace with the Triple Entente powers, the better to deal with Italy. Semi-official negotiations, he says, have been begun.

5,950,000 Men Lost—Cost \$8,400,000,000

The losses of men during the first six months of the war were estimated by the military expert of a Rome newspaper at 5,950,000. The cost of the war in that period is placed at \$8,400,000,000.

General Pau, of the French army, who has reached Naples on his way from Petrograd and the Balkan capitals, corroborated the reports that the allies are preparing for a combined land and sea attack on the Dardanelles. When this attack is made the general says, the Turkish fortifications must fall.

More Dope From Petrograd.

Petrograd, April 8.—The advance of the Russians in the Carpathians has cut the Austrian army under General Boeravitch in two places. The eastern wing of this army is in a precarious position. The Russians have captured Smolnik, east of Lupkow pass.

The Russians have also thrown back the Austrians in the district of Bartfeld and in the district of Lupkow. Having advanced through the Rostock Pass, they have forced a wedge between the Austrian armies.

Smolnik controls the only road through the Beskid mountains, between Mezolaborez and Uzok, a distance of sixty miles.

Belgians Declare They Have Won a Victory Over Germans.

Paris, April 8.—Twelve women and children were killed and forty-eight others injured by bombs dropped by Austrian aviators in the market place at Podgoritz, Montenegro, according to a Cetinje dispatch to the Illyas Agency. Many buildings were destroyed by the missiles, seven of which were dropped from an aeroplane.

Young Turks Want Peace.

Rome, April 8.—Carnegie Effendi, deputy for Constantinople, and Midhat Churey Bey, general secretary of the committee of Union and Progress, have arrived in Rome. It is rumored that these prominent Young Turks leaders are charged with opening negotiations for peace.

J. Bull Shies At Water Wagon.

London, April 8.—There will be no mandate issued putting a ban on intoxicants throughout Great Britain and the colonies during the duration of the war.

LARGE EQUIPMENT ORDERS.

The railroads placed orders for 267,000 tons of rails, 22,000 tons of bridge work, 1,634 cars, of which 634 were all steel, placed with the Pullman Company, 1,820 cinder frames, and 110 locomotives during March.
